

QGIS Application - Bug report #10672

regression: impossible to paste polygon into newly created shapefile

2014-06-23 02:28 AM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	Severe/Regression	
Assignee:	Denis Rouzaud	
Category:	Vectors	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 19071
Description Steps to reproduce: <ol style="list-style-type: none">1. Create a new project, and add the attached polygon shapefiles (provinces.shp and rcac_regions.shp)2. Turn rcac_regions layer's edit mode on.3. On the provinces layer, select the polygon with PROV_NAME equating 'Kampong Thom' (it's the middle one to the right of the inner empty space)4. Copy the polygon5. Try and paste the polygon onto the rcac_region layer, it will reject with the following message bar: "no features could be successfully pasted" <p>This is highly problematic, and works perfectly fine under QGIS 2.2.</p>

History

#1 - 2014-06-23 02:55 AM - Mathieu Pellerin - nIRV

I should have added that most polygons can be pasted onto the rcaf_region layer, but the provinces polygon named 'Kampong Thom' fails.

#2 - 2014-06-23 06:37 AM - Denis Rouzaud

- Assignee set to Denis Rouzaud

#3 - 2014-06-23 07:01 AM - Denis Rouzaud

- File pasteshape.zip added

The problem is that the feature is multipart but the destination layer is known as single part, so nothing can be paste.
I believe the problem is that shapefiles should always (?) be considered as multipart.

I am not sure where to handle this.

in QGisApp::editPaste: if layer is shape, force multi in conversion?

#4 - 2014-06-23 07:59 AM - Denis Rouzaud

<https://github.com/ggis/QGIS/pull/1483>

#5 - 2014-06-23 03:03 PM - Pedro Venâncio

I confirm this also with lines / multilines.

Waiting for Denis PR be accepted and merged.

Thanks Denis!

#6 - 2014-06-24 09:03 PM - Martin Dobias

- Status changed from Open to Closed

Fixed in changeset commit:"39eaff90975e533d0e71293511c5181f8ce7d0d2".

#7 - 2017-07-05 06:47 PM - Jürgen Fischer
