

# QGIS Application - Bug report #10677

## qgis 2.3 query builder Values Sample is broken

2014-06-23 07:32 AM - baditaflorin -

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Vectors	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 19075
<b>Description</b>	
I am testing now the Qgis weekly, and i saw that in the new qgis, when i try to see the sample i don't get only the value that i am asking for, it will randomly choose other fields that they will be included in the result

- Status changed from Feedback to Closed

I looked at the DBF file and it looks that the error happen somewhere in the QGIS import of the <http://download.geofabrik.de/europe/romania-latest.osm.bz2> , the Vector > OpenStreetMap > Import topology from XML and export topology to SpatialLite

I will try to replicate to see what is the problem, if is from Qgis or possible from the Geogabrik export
