

QGIS Application - Bug report #10760

v.to.points not working

2014-06-30 08:55 AM - baditaflorin -

Status: Closed	
Priority: Normal	
Assignee:	
Category: Processing/Core	
Affected QGIS version: master	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: worksforme
Crashes QGIS or corrupts data: No	Copied to github as #: 19143
Description	
<p>Oooops! The following output layers could not be open Output vector map where points will be written: C:\Users\florin\AppData\Local\Temp\processing\ff2181b4282ec42fcae364e5e60a5fa8b\output.shp The above files could not be opened, which probably indicates that they were not correctly produced by the executed algorithm Checking the log information might help you see why those layers were not created as expected This algorithm requires GRASS to be run. A test to check if GRASS is correctly installed and configured in your system has been performed, with the following result: GRASS seems to be correctly installed and configured</p>
