

QGIS Application - Feature request #10801

OSM POI's Mapnik style

2014-07-03 03:35 PM - baditaflorin -

Status:	Open	Resolution: Copied to github as #: 19180
Priority:	Low	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	Not supplied	
Easy fix?:	No	
Description		
<p>Why i would find this interesting, because we don't have a default style for OSM poi data.</p> <p>We know how the data will be formatted from the overpass api, so we could facilitate for the users to create a style, that other users can easily load , and show using the icons that already comes with QGIS</p> <p>Also, it would be useful if we can provide a place, similar with the plugins, where people can save their styles and other people to contribute, fork, update the style.</p>
