QGIS Application - Bug report #10814
Ability in style color to add Hex Color Codes

2014-07-05 02:32 AM - baditaflorin -

Status:	Closed			
Priority:	Normal			
Assignee:	Nyall Dawson			
Category:	Symbology			
Affected QGIS version:	2.4.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:		**Copied to github as #:**	19190	

Description

For now we have to manually select all the setting , the RGB

If you have the Hex-values you have to manually select them and paste in each of the 3 values, making a tedious process

From what i have seen, Qgis is using the default windows color picker, so i don`t know how easy is to implement something like this but it would be nice and useful

Maybe something like this

https://github.com/cyotek/Cyotek.Windows.Forms.ColorPicker

History

#1 - 2014-07-06 02:30 PM - Jürgen Fischer

- Category set to Symbology

#2 - 2014-07-07 09:07 AM - Giovanni Manghi

- OS version deleted (7)

- Operating System deleted (Windows)

#3 - 2014-09-07 04:39 AM - Nyall Dawson

- Assignee set to Nyall Dawson

#4 - 2014-09-17 05:09 AM - Nyall Dawson

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Implemented in master.
