

QGIS Application - Feature request #10825

wheel zoom using predefined scales

2014-07-06 10:58 AM - Kalle Kronholm

Status:	Open	Resolution: Copied to github as #: 19200
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>I have background maps from tile-services. These only look nice at predefined zoom-levels, which I have set in the "options" under "predefined scales". I can change the zoom-behaviour of my mouse-wheel in "options". There, under "mouse wheel action", I suggest an option where the wheel scrolls through the predefined scales.</p>
