Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	19214

Description

The SQL Anywhere data provider has not been well tested with changes to the data provider API in recent versions. The data provider and corresponding plugin should be removed, as they are not widely used. The functionality can be replaced in the future via the OGR data provider, once a SQL Anywhere OGR driver is available in a shipping GDAL release.
