

QGIS Application - Bug report #10885

QGIS crashes when digitising, while avoiding intersections

2014-07-12 06:16 AM - Rombert Stapel

Status: Closed	
Priority: High	
Assignee:	
Category: Digitising	
Affected QGIS version: 2.4.0	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: worksforme
Crashes QGIS or corrupts data: Yes	Copied to github as #: 19253

Description

QGIS crashes when adding new polygons while 'avoid intersections' is switched on. Sorry, I am pretty new to this, so let me know if you need other info. The dmp file 24MB, but here is the data when you use Windows Debugger to open the file:

```
Microsoft (R) Windows Debugger Version 6.3.9600.17029 AMD64

History

#1 - 2014-07-17 05:14 AM - Giovanni Manghi

- Priority changed from Severe/Regression to High
- Status changed from Open to Feedback

what we need is a project (with data) and precise steps on how replicate. Meanwhile you may want to try disable/uninstall all the 3rd party plugins, just to be sure that there is nothing external interfering.

#2 - 2014-10-08 08:18 AM - Giovanni Manghi

- Resolution set to worksforme
- Status changed from Feedback to Closed

closing for lack of feedback, please reopen if necessary.
