

QGIS Application - Feature request #10914

Comments in QGIS Query Builder

2014-07-19 06:38 AM - Tut halija

Status:	Open	Resolution: Copied to github as #: 19277
Priority:	Normal	
Assignee:		
Category:	Vectors	
Pull Request or Patch supplied:	Not supplied	
Easy fix?:	No	
Description		
<p>When trying different queries in the Query Builder it would be a nice feature to comment them to see (quickly) the differences between them, or to comment your own work.</p> <p>SQL comments don't work (i.e. /* */, #, --)</p> <p>See: http://gis.stackexchange.com/questions/107522/</p> <p>Example:</p> <ol style="list-style-type: none">Control Query"id" < 15 # This has to be evaluated <ol style="list-style-type: none">"id" > 15"id" = 15
