

QGIS Application - Feature request #10948

Use SELECT query as data source in MSSQL

2014-07-24 03:47 PM - Markus Woehling

Status:	Open	
Priority:	Normal	
Assignee:	Nathan Woodrow	
Category:	Data Provider/MSSQL	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 19301
Description		
<p>I would like to use a SELECT statement as data source. This seems to be possible with postgres, but it's not possible with MSSQL, because the "table=dbo.tablename"-part of the data source must have this exact format. In postgres it's possible to use "table=(SELECT ... FROM xyz)".</p>
