

QGIS Application - Bug report #10972

Cannot create a spatialite layer with no attributes

2014-07-29 06:47 AM - Olivier Dalang

Status: Closed	
Priority: Normal	
Assignee:	
Category: Data Provider/Spatialite	
Affected QGIS version: 2.4.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: end of life
Crashes QGIS or corrupts data:	Copied to github as #: 19318
Description	
<p>Hi !</p> <p>In the "new spatialite layer" window, the OK button is grayed out unless you add at least one attribute in the list (the autoincrementing column doesn't count).</p> <p>But as far as I know, a spatialite table with only a geometry column is perfectly valid and sometimes wanted.</p> <p>Thanks !</p>	

History

#1 - 2016-05-24 10:53 PM - Alexander Bruy

- Category changed from Vectors to Data Provider/Spatialite

#2 - 2017-05-01 01:08 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#3 - 2019-03-09 03:12 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
