QGIS Application - Bug report #10984
Not possible to symbolise a no-line border style.

2014-07-30 03:58 AM - Jonathan Moules

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Affected QGIS version:	2.4.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19327	

Description

Neither of the following two approaches to trying to create invisible borders for a polygon work.

Border Style: "No Pen" - creates a obvious white line where there should be none.

Border Style: Solid Line - set the fill and border colour to the same colour (i.e. RGB: 0,85,0) (dark green) - there's a less obvious white line that's still visible.

History

#1 - 2014-07-30 07:41 AM - Andreas Neumann

See email-thread at http://lists.osgeo.org/pipermail/qgis-user/2014-July/028603.html

It is an issue of the rendering library - not a bug in QGIS.

Other rendering libraries, like AGG have solved this issue.

#2 - 2014-07-30 08:21 AM - Giovanni Manghi

- Resolution set to duplicate

- Status changed from Open to Closed

duplicate of #10166 and #8861

workaround: uncheck the "makes lines appear less jagged..." option in qgis general settings.
