QGIS Application - Feature request #1099
button to add class graduated symbol dialog

2008-05-19 11:49 AM - Marco Hugentobler

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	Symbology			
Pull Request or Patch supplied:			**Resolution:**	fixed
Easy fix?:	No		**Copied to github as #:**	11159

Description

It would be useful to have a button that allows adding additional classes in unique value and graduated symbol dialog

Associated revisions

Revision 9eb0c669 - 2008-05-22 08:52 PM - Jürgen Fischer

enhance unique value dialog:

- allow selection of multiple classes
- new 'add class' button (fixes #1099)
- new 'reset colors' button to reset the color of selected/all classes to white
- new 'randomize colors' button to randomly set colors of selected/all classes
- 'remove classes' removes selected classes
- change common attributes for multiple selected classes at once
- allow renaming of classes
- 'Classify' now adds missing instead of recreating all classes
- used QMap instead for std::map for classes

It would be great if ticket #1075 could be merged into your ticket.

- Status changed from Open to In Progress

#3 - 2008-05-21 06:23 PM - Jürgen Fischer

I'm almost done with following change of the unique value dialog:

- allow selection of multiple classes

- add a class

- remove selected classes

- add missing classes (classify) without overwriting settings of existing classes

- randomize colors of all/selected classes

- set color of all/selected classes to white

- change setting of selected classes at once:

  - all common settings can be changed

  - all uncommon settings are disabled

- edit class names

#4 - 2008-05-22 12:04 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from In Progress to Closed

'add class' among other things added to unique value dialog in commit:d31074c2 (SVN r8494)

#5 - 2008-12-17 03:04 AM - bjpfei -

- Resolution deleted (fixed)

- Status changed from Closed to Feedback

I'm not totally sure if I'm right but I still miss the possibility to add a class in graduated symbol. It would be great to have there the same possiblities as in unique value. I'm using .

Thanks.

best regards

Michael

For what I see now (at least in qgis >= 1.1), it is possible to add classes in both unique value and graduated symbol dialogs. Closing, but reopen if necessary.
