<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> worksforme
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 19351
<b>Description</b>	
As subject.	
If you do a wms search (i.e. with qgis web client) on a layer that has defined scale visibility, it could return always zero results.	
If the maximum scale is set to 1:1 -> ALWAYS zero results.	
If the maximum scale is set to 1:0 -> WMS Search is working.	

#### History

##### #1 - 2014-09-09 04:13 AM - Alessandro Pasotti

- Priority changed from Severe/Regression to Normal
- Status changed from Open to Feedback

I cannot reproduce on current master.

Can you please provide a sample project and the query string that fails?

##### #2 - 2014-10-04 01:11 AM - Giovanni Manghi

- Resolution set to worksforme
- Status changed from Feedback to Closed

closing for lack of feedback. Please reopen if necessary.
