

QGIS Application - Feature request #11043

Atlas: Show only active feature

2014-08-12 11:52 PM - Loïc BARTOLETTI

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Composer/Printing	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 19382
Description	
Please, can you add an option to show only the active feature of the coverage layer?	
You have an example into the zip file.	
Regards.

Good morning Loïc,

since QGIS 2.2 you can do such a thing using rules to draw only current atlas feature :

<http://nathanw.net/2013/12/02/waiting-for-qgis-22-highlighting-current-atlas-feature/>

You only have to define the symbology for your layer and ask QGIS to apply it only to the current atlas feature with the rule \$id=\$atlasfeatureid

#2 - 2014-08-13 03:14 AM - Nyal Dawson

- Resolution set to fixed/implemented

- Status changed from Open to Closed

As mentioned by Mathieu - this is currently possible.

#3 - 2014-08-13 11:00 PM - Loïc BARTOLETTI

Indeed, we can do whatever we want with symbology.

But I thought it might be directly in control of the atlas without changing the symbology.
