QGIS Application - Bug report #11085
delayed start after VPN use

2014-08-21 02:04 AM - Jakob Lanstorp

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Unknown			
Affected QGIS version:	2.4.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	end of life	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19418	

Description

Reproduce VPN 'error' in OSGEO4W QGIS 2.4 and previous versions:

1. Use data or a QGIS project through a VPN connection.

2. Close QGIS

3. Close VPN

4. Open QGIS. Now QGIS takes minutes to start, maybe looking for a closed VPN path. The text in the hanging QGIS splash dialog is: Setting up the GUI.

5. Close QGIS

6. Open QGIS: QGIS starts with no delay now.
