

QGIS Application - Feature request #11158  
Being able to choose the project file .qgs panel "Browser"

2014-09-08 12:59 AM - Roberto BobMaX

Status:	Closed	Resolution: fixed/implemented Copied to github as #: 19479
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
Actually, in the Browser panel *.qgs files are not visible.		
Instead, it would be very useful to be able to choose groups or levels contained in the project files.

It would also be nice to add support for .qgs project files to the standalone QGIS Browser so that users could then open QGIS projects from within the QGIS Browser or Browser panel.

#2 - 2017-04-28 12:27 AM - Frank Sokolic

The latest version of the browser panel now displays \*.qgs files. Can this issue be closed?

#3 - 2017-04-28 07:15 AM - Roberto BobMaX

The latest version of the browser panel now displays \*.qgs files.

Great !

Can this issue be closed ?

Yes. I think it is fixed.

Hi Roberto,

I'm not able to close this issue so you'll have to do it.
