QGIS Application - Bug report #11172
Export to OpenLayers3 crash Qgis when Label uses Field Expression

2014-09-09 10:42 AM - baditaflorin -

Status:	Rejected		
Priority:	Normal		
Assignee:			
Category:			
Affected QGIS version:	2.4.0	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	19486

Description

When i try and use this formula in the Labels of one vector field, and i try to save with OL3, i get a crash and a minidump

CASE WHEN ("pntcnt" >= 0000.1000) THEN "pntcnt" END

I attached the minidump and the file that i am using, and in the archive is also the style layer file that causes the crash

History

#1 - 2014-09-15 06:25 AM - Alexander Bruy

- Resolution set to invalid

- Status changed from Open to Rejected

- Category deleted (Python plugins)

Please submit bug to plugin bugtracker http://github.com/volaya/qgis-ol3/issues
