

QGIS Application - Bug report #1120

k parameter always set to 0

2008-06-01 07:50 AM - Maciej Sieczka -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Projection Support	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 11180
Description	
<p>1. load any shapefile</p> <p>2. file > properties > change SRS</p> <p>3. choose any SRS with k!=0 (eg. EPSG 2172, 2180)</p> <p>4. apply, ok</p> <p>5. enter properties again - see the k parameter is set to 0!</p> <p>Same happens if the SRS with a k!=0 is assigned automatically at the layer's load time.</p>

History

#1 - 2008-06-02 07:06 AM - Maciej Sieczka -

Notice: the issue takes place only in pl_PL.UTF-8. QGIS started from a terminal after "export LC_ALL=C" does not have this problem.

Probably the bug is down to , vs . as a decimal separator - pl_PL.UTF-8 uses comma.

#2 - 2008-06-04 02:23 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

should be fixed in commit:2b3bb91e (SVN r8593)

#3 - 2009-08-22 12:54 AM - Anonymous

Milestone Version 0.9.2 deleted
