Fix #11285 (improve symbol levels dialog for long symbol labels) - by Salvatore Larosa

History

#1 - 2014-09-28 03:34 AM - Salvatore Larosa

- Pull Request or Patch supplied changed from No to Yes

- Assignee set to Martin Dobias

- File symbollevels.png added

there is a patch here https://gist.github.com/slarosa/9431e90bc4396f3057ad

The patch also introduces to save geometry for the symbol levels dialog.

basically changes the header by removing only the symbol label which now is a read only cell in order to allow to resize it. I am not aware of a different workaround for fixing this. Maybe Martin has something better :-)

#2 - 2014-10-02 08:42 AM - Martin Dobias

- Status changed from Open to Closed

Fixed in changeset commit:"f652afb9fac246742d7a131bcd9b6b7f7156709f".

#3 - 2014-10-02 08:44 AM - Martin Dobias

Thanks Salvatore for the fix! I have applied it with just minor changes.
