

## QGIS Application - Bug report #11311

### DB Manager doesn't import PostGIS data in view with dblink

2014-10-02 09:46 AM - Moreno Comelli

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> DB Manager	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 19607
<b>Description</b>	
<p>I tried to import in QGIS a view with a PostGIS geometry column, which data are obtained from a second db (using dblink in Postgres). It works through the normal 'Add PostGIS layer', not through DB Manager.</p> <pre>CREATE OR REPLACE VIEW my_view AS SELECT id, geomfromtext('POINT('   x_coo    ' '    y_coo    ')', 3003) FROM dblink('host=127.0.0.1 port=5432 dbname=xxx user=xxx password=xxx', 'SELECT id, x_coo, y_coo FROM my_table;') AS m (id numeric, x_coo numeric, y_coo numeric);</pre>	

#### History

##### #1 - 2017-05-01 01:08 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

##### #2 - 2019-03-09 04:09 PM - Giovanni Manghi

- Resolution set to end of life
- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
