### Description

Hi, it seems there is something not properly working with the Tile request in the WMTS client. The error I keep receiving is the following:

"Errore numero massimo di richieste di mattonelle. Fallite 3 richieste per le mattonelle 0 della richiesta 1 (url: /Services/host/host.ashx?url=http://localhost:85/utm34n/ortofoto/UTM34N/1/0/0.jpg&AspxAutoDetectCookieSupport=1)"

(Transl:\* Maximum error of tile request. Failed 3 requests for tiles 0 of request 1\*)

the address of the wmts service is the following: <http://geoportal.asig.gov.al/Services/host/host.ashx?url=http://localhost:85/utm34n/> and it seems to work properly on the webpage <http://geoportal.asig.gov.al/Map.aspx?lang=AL>
