

QGIS Application - Bug report #11388

Processing dialogs don't display existing files and extension

2014-10-11 07:46 AM - andre mano

Status:	Closed		
Priority:	Severe/Regression		
Assignee:	Victor Olaya		
Category:	Processing/GUI		
Affected QGIS version:	master	Regression?:	No
Operating System:	Win and Linux	Easy fix?:	No
Pull Request or Patch supplied:	No	Resolution:	
Crashes QGIS or corrupts data:	No	Copied to github as #:	19671
Description			
With any tool of processing, if one chooses the option "save to file", the selected directory will not display the existing files of the same extension. Also the extension is not added automatically once the user is through with selecting the directory and the file name. (check screenshots). This was confirmed on both Windows and Linux (built 34ccc81) and did not occurred on 2.4.
