QGIS Application - Bug report #11389
Processing dialogs don't display existing files and extension

2014-10-11 07:46 AM - andre mano

Status:	Closed			
Priority:	Severe/Regression			
Assignee:				
Category:				
Affected QGIS version:	master	**Regression?:**	No	
Operating System:	Win and Linux	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19672	

Description

With any tool of processing, if one chooses the option "save to file", the selected directory will not display the existing files of the same extension. Also the extension is not added automatically once the user is through with selecting the directory and the file name. (check screenshots). This was confirmed on both Windows and Linux (built 34ccc81) and did not occurred on 2.4.
