

QGIS Application - Bug report #114

labels not working for shapefiles

2006-05-14 12:54 AM - Surge -

Status: Closed	
Priority: Low	
Assignee: Martin Dobias	
Category: Map Canvas	
Affected QGIS version:	Regression?: No
Operating System: Linux	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 10173

Description

Labels are not displayed for some ESRI shapefiles including ones created by ogr2ogr.

The fields and data are shown in the attribute table **inside** QGIS but they are not rendered with the features.

Data used : city shapefiles from ESRI World Base Map. (<http://www.esri.com/data/download/basemap/index.html>)

Even after stripping down the shapefile to just CITY_NAME with ogr2ogr QGIS would still not render the labels but is quite happy to show it to me in the attribute table.

This problem has been around for a couple of releases and is still in version 0.7.4

History

#1 - 2006-05-14 06:11 AM - Redmine Admin

Work for me in 0.8.0Preview.

#2 - 2006-05-14 06:39 AM - Mateusz Loskot -

I want to add that I tested it with 0.8.0Preview.

#3 - 2006-05-14 02:49 PM - Gavin Macaulay -

- Resolution set to fixed

- Status changed from Open to Closed

This problem is resolved in the 0.8.0 pre-release versions of qgis.
