

QGIS Application - Bug report #1144

"New features" doesn't always mean Polish "Nowe obiekty"

Crashes QGIS or corrupts data:	Copied to github as #: 11204
Description	
<p>The "New features" string in "Help > About > What's new" seems to be automatically translated into Polish "Nowe obiekty" which means "New objects" rather than "New features" and is wrong in this context. A correct translation would simply be "Nowości" here.</p>

I guess it was translated by Tomasz Paul or Andrzej Swiader. I changed it in the translation file, so it should be ok now.
