

QGIS Application - Bug report #11513

DBmanager layer load fails with semi-colon

2014-10-28 08:48 AM - Gavin Fleming

Status: Closed	
Priority: Normal	
Assignee:	
Category: DB Manager	
Affected QGIS version: 2.4.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 19783

Description

The presence of a semi-colon at the end of a query in DBManager results in loading a layer failing. It should ignore the semi-colon or give a more informative message.

Unable to execute the query.

The error message from the database was:

ERROR: syntax error at or near ";"

LINE 1: ...nsform(the_geom,32733),100) from l_roads where gid = 327898;

^

SQL: SELECT * FROM (select gid,st_simplify(st_transform(the_geom,32733),100) from l_roads where gid = 327898;) AS "subQuery_0" LIMIT 1

History

#1 - 2014-10-28 11:09 AM - Nyal Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Already fixed in master
