

QGIS Application - Bug report #11519

PyQGIS api file should be updated for 2.6 release

2014-10-28 07:58 PM - Nyal Dawson

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category:	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 19789
Description	
The PyQGIS api file used for the python console needs to be updated prior to the 2.6 release. It's missing api changes from the 2.6 series.

Hi Nyal, I updated the prepared APIs file here commit:2da907741e188b1c75e0c3916bb3be7f9ae11542, so you should already have the new API available, isn't?

#2 - 2014-10-29 01:30 AM - Nyal Dawson

- Resolution set to invalid
- Status changed from Open to Closed

Ahh, must have missed that. Sorry for the noise!
