

QGIS Application - Feature request #11620

Processing: please bring back "Save as Python script" option

2014-11-11 11:07 PM - Paolo Cavallini

Status: Closed	
Priority: High	
Assignee: Victor Olaya	
Category: Processing/Modeller	
Pull Request or Patch Supplied: No	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 19873
Description	
In previous versions of Processing it was possible to save commands and models as Python scripts. Due to modeller rewrite, this option is now gone, and should be rewritten as well. I think this is an important function to have.
