Category:	Labelling			
Affected QGIS version:	2.6.0		**Regression?:**	No
Operating System:	Windows		**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	20025

Description

'Rotate Label' freezes after working with it (together with 'Move Feature(s)') a short period of time. I've tried everything also googled it but the only solution is to reinstall QGIS but the problem occurs again.

History

#1 - 2014-12-08 04:44 AM - Giovanni Manghi

- Status changed from Open to Feedback

I cannot replicate using projects/data of my own. This could be something that is data-related, so better if you can attach here a sample project (and data) where the issue shows.

#2 - 2015-01-10 09:05 AM - Jürgen Fischer

- Status changed from Feedback to Closed

- Subject changed from 'Rotate Lable' freezes to 'Rotate Label' freezes

closing for the lack of feedback
