

QGIS Application - Bug report #11835

Print layout not saved within project file on Mac OSX

2014-12-10 02:13 AM - Michael Dunne

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Composer/Printing	
Affected QGIS version: 2.6.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 20053
Description	
<p>Working on a QGIS project on Windows I am used to the print layout/composer being saved with the project, however when working on the Mac any print layouts saved with a project are not present when the saved project is re-opened. Both PC and Mac are running version 2.6, Windows 7 and Mac OSX Yosemite. Am I missing something or is this a known issue?</p> <p>Thanks,</p> <p>Michael.</p>
