QGIS Application - Feature request #11892

Save to last used directory, not home, when entering filename directly in layer Save As dialog 2014-12-18 09:39 AM - Johannes Kroeger

Status:	Open				
Priority:	Normal				
Assignee:					
Category:	Unknown				
Pull Request of	Patch swupplied:	Resolution:			
Easy fix?: No		Copied to github as	Copied to github as #: 20106		
Description		L L			
If you enter a file	name directly in the "Save as" field	l of the layer Save As dialog, QGIS will s	ave the file to t	the home directory	(at least to ~/
on Linux).					
If you click on Br	owse QGIS knows what directory	you last used and automatically opens the	ne chooser dial	og in it.	
•	•	at when you enter a filename directly in			he last used
