Pull Request or Patch shapplied: Resolution: wontfix Crashes QGIS or corruptesdata: Copied to github as #: 20116

### Description

Hi QGIS crash when I edit a grass vector layer using the specific tool on the grass toolbox.

If I delete a boundary and save edits QGIS will crash.

When I reopen QGIS the vector layer require to be build again (topology build) but It seems that some geometry are missing. Such bug appear on ubuntu 12.04 and 14.04 and on QGIS 2.4 and 2.6.

#### History

### #1 - 2014-12-22 08:18 AM - Giovanni Manghi

the GRASS plugin is unmantained and I'm not sure what will be the policy about the issues of this component.

## #2 - 2015-05-27 07:58 AM - Giovanni Manghi

- Priority changed from Normal to High

#### #3 - 2015-11-13 07:18 AM - Radim Blazek

- Resolution set to wontfix
- Status changed from Open to Closed

Editing was completely rewritten in 2.12.
