

QGIS Application - Bug report #11937

Distance between labels wrong

2015-01-04 03:36 AM - Paolo Cavallini

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Labelling	
Affected QGIS version:	2.6.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 20145
Description When setting the distance between labels in map units (meters), the results is not what is expected, and it is different between the canvas and the layout raster output. See the attached example: <ul style="list-style-type: none">- line- distance between points along the line= 1000 map units- label repeat distance set first to 1000, then to 4000 - see the two raster output
