QGIS Application - Bug report #11976
qgis:grid parameter order changed breaking dependent scripts
2015-01-11 06:44 AM - Anita Graser

Status:	Closed			
Priority:	Low			
Assignee:	Victor Olaya			
Category:	Processing/QGIS			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	wontfix	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	20183	

Description

Most likely qgis:grid is not the only algorithm which is affected by problem.

See https://github.com/qgis/QGIS-Processing/issues/8

History

#1 - 2015-01-11 08:26 AM - Anita Graser

I fixed the two scripts in the QGIS Processing repository but I'm concerned why this happened. Was the parameter order changed on purpose?

#2 - 2015-05-10 01:02 AM - Giovanni Manghi

- Target version changed from Version 2.8 to Version 2.8.2

#3 - 2015-05-14 03:02 AM - Giovanni Manghi

- Target version changed from Version 2.8.2 to Version 2.10

#4 - 2015-06-21 10:51 PM - Victor Olaya

- Priority changed from High to Low

Not sure we should still consider this a problem

The change was a minor API break, but it was already sometime ago and no one complained...so I guess that reverting it now makes no sense. Scripts in the repo are fixed, so we should leave it like that.

It is not a change that affects other algorithms, it was just a specific change of syntax

Please, close the ticket if you agree with this

#5 - 2015-06-22 12:28 AM - Anita Graser

- Status changed from Open to Closed

I guess it's fine if the scripts in the repo are fixed. I hope this kind of issue does not happen on a regular basis.

#6 - 2015-06-22 12:28 AM - Anita Graser

- Resolution set to wontfix
