

QGIS Application - Bug report #12039

Wrong tip text in dialog -Create a new PostGIS connection-

2015-01-22 12:17 PM - Albert van de Maat

Status: Closed	
Priority: Low	
Assignee:	
Category:	
Affected QGIS version: 2.6.1	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 20242
Description	
In the dialog 'Create a new PostGIS connection' there is a wrong tip text on the Don't resolve type of unrestricted columns (GEOMETRY) checkbox. It shows a copy of the Only show layers in the layer registries checkbox.	

History

#1 - 2015-01-26 01:37 AM - Richard Duivenvoorde

in future it is helpfull if you provide the QGIS version that you find this issue.

as I see it now, this was 2.6 :-)

as there you see this, in current master (the dev version) there is NO tooltip on the Dont't.... line

not sure if we should close this one, or we should provide a better tooltip for the checkbox.

On second thought: for me it would be helpfull if the tooltip would tell me what Unrestriced columns (Geometry) means :-)

(it is not mentioned in the context help text, but... hopefully we will have this online in a later version)

It means geometry type columns that don't have a geometry type constraint - ie. can not only contain (multi)points, (multi)lines xor (multi)polygons, but any mix thereof.

What about making the (default OFF) checkbox caption:

Resolve type of unconstrained mixed GEOMETRY columns (slower)

with tooltip "QGIS can try to find GEOMETRY types in the data and show them"

#4 - 2015-01-26 02:55 AM - Jürgen Fischer

- *Resolution set to fixed/implemented*
- *Status changed from Open to Closed*

fixed in commit:c1e4371b259d717e8da2b3eb3cd9bde0f6793df0
