

QGIS Application - Bug report #12042

Table Joins: impossible to select specific fields

2015-01-23 01:43 AM - Andreas Neumann

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category:	
Affected QGIS version: 2.6.0	Regression?: No
Operating System: all platforms	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 20245
Description	
<p>In current master it is impossible to choose specific fields. The GUI is always grayed out, even when the checkbox "Choose which fields are joined" is activated.</p> <p>See attached screenshot.</p> <p>I tested with two PostgreSQL layers.</p> <p>I don't know which category should be chosen for this bug. There is no "table" or "join" category.</p>
