

QGIS Application - Bug report #12047

Manage Layers toolbar icons

2015-01-24 10:01 AM - Randal Hale

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 20250
Description		
Test OSGEO4W 64 bit and UbuntuGIS testing installs. On UbuntuGIS on the manage layers toolbar, the default action/icon for creating new layers is to create a new shapefile. On the OSGeo4W 2.8 install the default action/icon is to create a new scratch layer. It doesn't matter which - just make them both the same.		

History
