

QGIS Application - Feature request #12126

Export/Print Print Composers from the command line

2015-02-04 06:59 AM - Samuel Ingarfield

Status: Open	
Priority: Normal	
Assignee:	
Category: Map Composer/Printing	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 20320
Description	
<p>Often, I have projects with many print composers defined. These projects involve dynamic data that changes frequently (pulled from some backend database). It would be good if there were a way to export print composers (which have been previously defined) from the command line, so that this can be batch/shell scripted.</p> <p>Something like</p> <pre>qgis --export-print-composer name-of-composer -f pdf -o output-file.pdf</pre>
