

# QGIS Application - Feature request #12128

## modelus: "save as python script" in the context menu

2015-02-04 11:52 AM - Mark Hartmann

<b>Status:</b>	Rejected	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Victor Olaya	
<b>Category:</b>	Processing/Modeller	
<b>Pull Request or Patch Supplied:</b>		<b>Resolution:</b> duplicate
<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 20322
<b>Description</b>		
'Save as Python script' is not available on the context menu in the Processing Toolbox.		

### History

#### #1 - 2015-02-05 01:41 AM - Giovanni Manghi

- OS version deleted (7)
- Operating System deleted (windows)
- Subject changed from Save as Python script in the context menu is Missing to modelus: "save as python script" in the context menu
- Tracker changed from Bug report to Feature request

I think that has been removed on purpose, but not 100% sure. Let's see what Victor or Alexander will say.

#### #2 - 2015-02-05 03:49 AM - Alexander Bruy

- Resolution set to duplicate
- Status changed from Open to Rejected

Duplicates #11620.

And yes, this option was removed during modeler overhaul, as it is buggy and does not really work
