History

#1 - 2015-02-07 02:10 AM - Giovanni Manghi

- Affected QGIS version changed from 2.6.0 to master
- Subject changed from QGIS Map Tips HTML problem to Map Tips HTML: images added with are only shown if source is a local file
- Category set to Map Canvas

it seems it works only if the source of the image is a local file, it doesn't work if the source of the image is a http address.
