<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 20336
<b>Description</b>	
<p>Hi,</p> <p>in the Transifex QGIS-desktop project there is a mistake concerned attribute table order, in line 11874 it is written:</p> <p>"Each column can be sorted by clicking on its column header. A small arrow indicates the sort order (downward pointing means descending values from the top row down, upward pointing means ascending values from the top row down)."</p> <p>but in QGIS the downward pointing arrow means ascending values and upward pointing arrow means descending value.</p> <p>Enrico</p>	

#### History

#1 - 2015-02-06 02:03 AM - Enrico Fiore

- Target version set to Version 2.8

#2 - 2015-03-05 06:27 AM - Alexander Bruy

- Status changed from Open to Closed
