Priority: Normal	
Assignee: hannah arcuschin machado	
Category: Map Composer/Printing	
Affected QGIS version: 2.6.1	Regression?: No
Operating System: OS X Yosemite	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: duplicate
Crashes QGIS or corrupts data: No	Copied to github as #: 20342

Description

Every time I open an existent project, the print composer window "forgets" the frame I've established for the map. The image of the map does not appear. Instead of the map, appears the following message: "Map will be printed here". This bug existed in previous QGIS version (2.2).
