

QGIS Application - Feature request #12179

Map rotation: more userfriendly interactive rotation tool

2015-02-11 01:30 AM - Andreas Neumann

Status:	Open		
Priority:	Normal		
Assignee:	Sandro Santilli		
Category:	GUI		
Pull Request or Patch supplied:	No		
Easy fix?:	No	Resolution:	Copied to github as #: 20369
Description			
<p>The map rotation should be more intuitive. Currently, one can only set the rotation with numerically in the status bar.</p> <p>A new interactive rotation tool could be combined with the pan tool. When pressing a modifier key the rotation mode could be activated.</p> <p>I envisage a rotation tool similar to OpenLayers 3: http://openlayers.org/en/v3.2.0/examples/drag-rotate-and-zoom.html</p> <p>However, maybe only limited to rotating. I find the combined rotate/zoom a bit hard to use.</p>
