

QGIS Application - Bug report #12223

DXF Export unreadable.

2015-02-18 06:53 AM - Claas Leiner

| | |
|---|-------------------------------------|
| Status: Closed | |
| Priority: Severe/Regression | |
| Assignee: | |
| Category: DXF export | |
| Affected QGIS version: 2.6.0 | Regression?: No |
| Operating System: | Easy fix?: No |
| Pull Request or Patch supplied: | Resolution: worksforme |
| Crashes QGIS or corrupts data: | Copied to github as #: 20411 |
| Description | |
| The DXF export from QGIS Master 2.7 is not readable. With QGIS 2.6 is the result of the same record properly. Below is the sample files .. | |

History

#1 - 2015-02-18 04:25 PM - Jürgen Fischer

- Resolution set to worksforme
- Status changed from Open to Closed

The 2.7 dxf is empty (no entities), but loads w/o errors in AutoCAD.
