QGIS Application - Bug report #1225
Crash when editing table of a polygon shape

2008-08-20 06:27 AM - cantalou -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Vectors			
Affected QGIS version:			**Regression?:**	No
Operating System:	Windows		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed
Crashes QGIS or corrupts data:			**Copied to github as #:**	11285

Description

Testing the metis release (0.11.0.1 & 0.11.1.2) I always have crashes while editing the table of a polygon shape. It do'nt appen with the Io version.

History

#1 - 2008-10-07 10:37 AM - Tim Sutton

Test dataset works fine for me on ubuntu heron, as of commit:a185c783 (SVN r9453) . Can someone test on win xp?

#2 - 2008-10-22 11:55 AM - Magnus Homann

- Resolution set to fixed

- Status changed from Open to Closed

It crashes for me in Metis on XP (), but not in trunk (commit:73c0a754 (SVN r9491)). The bug seems fixed! :-)

#3 - 2009-08-22 12:57 AM - Anonymous

Milestone Version 1.0.0 deleted
