

QGIS Application - Bug report #12351

Weighted concentration renderer: difficult to remove weights

2015-03-10 12:23 PM - Paolo Cavallini

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	3.0.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 20526
Description		
If I select one field as a weight for the concentration renderer, to remove it I cannot select an empty field, but I have to erase the content by hand. A minor issue, but annoying nevertheless.

- Easy fix? set to No
  - Regression? set to No
- #3 - 2018-03-07 05:36 PM - Paolo Cavallini
- Affected QGIS version changed from 2.8.1 to 3.0.0

Unchanged in QGIS 3. Very minor anyway.
