## QGIS Application - Feature request #12379 Delete Selected to have option for Delete !selected

2015-03-16 09:37 AM - Zoltan Szecsei

Description Hi, It would be nice to have a "Delete NOT selected" option on the Icon for "Delete Selected". This because currently you have to select, open attribute table, invert selection, and then only delete selected. This becomes tedious when cropping a few maps. Thanks!,	Status:	Open
