History

Pressing ESC will close it.

#2 - 2015-03-21 04:22 PM - Corey Burger

Right, but that isn't obvious. As it also covers up the notification area...

#3 - 2015-03-21 06:01 PM - Nathan Woodrow

That is true. It really shouldn't be using the message bar for that kind of thing.

#4 - 2015-03-21 07:41 PM - Corey Burger

I think there are two issues here:

1. Commander is in the wrong place in the UI (it covers the notification bar)

2. Commander doesn't toggle on/off like other toolboxes/windows

Probably should split the two off
