| <p>Hello,</p> <p>I try to do a marker line and I need to set size of marker from attribute. When I set it, there is no visible marker(just simple point). On pictures are shown details of settings. When attribute size is used, there is only small start point of each marker. When I set the size to regular number by expression (3rd picture) everything works.</p> <p>Thanks</p> <p>B.</p> |             |                                      |
